

Introducing the
YAMAHA
COLLECTION

www.yamaha-motor.eu

YAMAHA FACTORY RACING WATCH COLLECTION

- One Year ago Yamaha announced the collaboration between YAMAHA Factory Racing and TW steel.
- Following the success of the PILOT and TECH editions watches, the Line up has been further extended.

- To Enhance the success and strengthening the relation ship with YAMAHA Factory Racing and VR 46, a full new range of watches has been added.

The Range

- While keeping the Pilot and Tech as premium products in the collection, a fully newly designed collection has been added.
- Celebrating the shared synergies of passion, power and performance, TW Steel has produced a dynamic new six-piece watch collection to showcase the Yamaha Factory Racing brand. Naturally sporty in their appearance, the new designs, available in 40mm and 45mm sizes, are priced to appeal to fans of the team retailing for only HKD1280.

Offering features usually reserved for more expensive timepieces, the 'By TW Steel' moniker on each watch is representative of the DNA of these exciting and unquestionably affordable models.

The Watches

- Besides the dedicated Yamaha collection we added also two special ones from the VR 46 collection to make it a complete and attractive program.
- This makes that the ranges will be extended with 8 more watches in 2 sizes, 40 and 45 mm, matching with the identity of the Pilot and Tech.
