

## Techno Harley-Davidson of Hong Kong (Sole Authorised Dealer)

### *2009 Model Year- Custom Model Highlights*

#### **FXCW Softail Rocker™**

The Rocker offers authentic hard-tail chopper style with innovative ideas that could only be produced by Harley-Davidson. The Rockertail rear section mounts a wide fender directly to the swingarm, over a big 18-inch rear tyre. The Rocker rear fender and wheel move in unison as the Rockertail glides through 79mm of rear suspension

travel. A monochromatic silver stainless steel powdercoated paint scheme highlights the custom look. The solo seat is just 622mm off the ground.
